I am just heartbroken as I had not heard from Halcyon since January and after trying to email and call, of which both indicated that they no longer were active I decided to Google Halcyon's name and saw that she had died in March. I so wish her family had notified me.
Halcyon and I had been childhood friends and in later years corresponded via mail and than email. I have missed her emails as Halcyon was such a interesting, knowledgeable lady, I shall and miss my dear old friend. Josephine Jones
