I have had a fun life – not always easy not a lot of money but much love and a wonderful partner (Grandpa) to share it with – we respect each other and ourselves and I like to think it reflects in the adults our great children have become – Grandpa thinks of me before himself and I feel the same about him – he is my best friend. We have shared heartache – bad health – life, in general and, God willing, this next phase will be the best – I can not think of much I would change or do different – I have tried to be as good a Mother, Wife, Mother-in-law – person as I could – I’m sure I have made many mistakes doing each but I am sure no Grandmother ever loved her Grandchildren more! xxxxxxxx
