“ RIP MOM - As I sit here with tears in my eyes and the ache in my heart because you have left this place. I know in my heart you are in peace and with dad. We may have had our differences (but then again what mother and daughter doesn't), I always knew where I stood with you. You told me so many times how proud of me you were with being on my own so far away (in Texas) and you never had to worry about me. And when I needed someone to talk to I could always call you. I may not have liked what I heard but you always gave it to me straight, the way you saw it. I learned a lot from you and am passing it on to my daughter. She reminds me so much of you with her strong will and all. I miss you so much already. Miss the good morning text messages or phone calls. I look at the clock and say good morning to you still. I pray you and dad are back together in God's presence. I know dad would have been so very glad to have you back in his arms. I love you mom and miss you so darn much. Until we see each other again.....
