“ *Well my friend, you are now at rest with your dad and your son. You were one strong lady with a determination to make sure you got back home to Michigan. I could not understand why you would not go to the hospital or clinic in Florida but now I think you knew something that no one else knew. That your end was near and you knew right where you wanted to be. I will miss you after an almost 50 year friendship, it makes me so sad. At least you got to meet Haley's new baby and you were so in love with her. You were always the one calling me to see how I was doing and in the meantime you were so very sick yourself. My condolences to the family. Sorry I will not be able to attend your funeral but you are in my prayers and thoughts.*
