“ Mom you will be forever missed, losing you is like a piece of my heart is missing! I will never forget all the talks of life we had, you have given me much information to carry on for the years to come. I only wish that you could have been with us longer, but GOD must have needed you for something very special. You were the glue that kept our family together but now that you are gone Dawn and I will take over for you. We will look after Dad for you until he is needed up there which I hope is not for a long long time. I will always love you and will see you again I'm sure of it.

*Thank you for all the family & friends that showed up today to share in this very special day, my mom was there watching us all.*

“ *Kathy was the original "never met a stronger" woman. She was always there for anyone who needed her and that included a meal. During one of our conversations she shared with me her life philosophy: don't let the past drag you down because you will miss the joy of the now. She was my friend and I will miss her, but with a smile in my ❤️.*
