“ You were truly my best friend. You were always here for me no matter what disaster I was going through. And you always made me feel better. I am so glad we got to spend Friday together. You were so happy and funny like always. You even told me that I could have the cactus. The famous cactus I was honored. I miss you so much already. I was so impressed with the way you handled cancer. And you beat it like I knew you would. But radiation is a tough one. And recovering from it was a hard battle. I love you Bobert. And you will forever be in my heart my broken heart. You're one of the few men I've ever known that thought about everyone else before yourself. You never liked to ask for help. I really wish you would have. Live I thought I was doing everything I could but I wasn't because now you're not here with me. And it sucks really bad. There are so many people in this town that knew you and every one of them has always had good things to say. You were one of a kind. And I thank you for being my friend. with all my heart and soul i will miss you forever. Tell my sister hello for me.. I will see you both when my turn comes. Always Autumn

*Such a great picture of your mother and Bob. I'm so sorry for the families' loss. My heart is still in shock but I will never forget all of the great times we had. 33 years is a long time to have someone a part of your life. We made some great memories traveling to Hawaii and Chicago and all over the eastern seaboard. I choose to focus my memories on the good times and the love we shared. It's been very hard to accept that he really is gone... Until we meet again.... May he rest in peace.*
