“ Mike has known Bob since the early 1960's due to meeting through bowling. Even bowled together one year. We enjoyed taking him out for his birthday dinners a few years and enjoying his stories, because he was certainly a great story teller. We will miss him, he was a great man and we were honored to call him our friend.

I worked for Bob in the 90's / 2000. Sorry to hear of his passing. To my knowledge he was the only person to bowl a perfect game for six decades. Sincere condolences to his daughter Barbara and family.

Met Bob when he hired me at the bowling alley in St Charles. I would sometimes work in the morning and pick up breakfast, his double toasted English muffin dry and a black coffee (can't believe I still remember his order). I loved hearing his stories of his wife, kids, bowling for the Stroh's team, serving in the Air Force during the Korean war. Bob knew I liked NASCAR, one day I picked up the phone at the bowling alley and on the other end was his friend Benny Parson's, I was shocked and thrilled. I surely will never forget Bob, and happy to have called him my friend.

*I just read about Bob's passing. My condolences to Barbara. I got to know Bob, well when we both were on the Ebonite staff and were sent to Europe for two weeks for exhibitions. Bib you were an awesome person and you were our rock on that trip. Thanks for being my friend.

I just found out of Bob's passing. A good friend thru the 60's, 70's when we boated together. Met Bob and Marlene when Bob owned the York Bar in Mt. Clemens and we'd been friends ever since. Last time we saw Bob was in the Four Star Grille near Bob's home around 1993-94. Reason the name popped up was school picture his daughter Barb had given to my then wife.
