“ Sue was my friend; she really was a great friend and visited me in Washington state where I raised my family. She could write long letters and was highly intelligent and kind. She was someone who I admired and a genuinely good person. We dated for a while as 14-year-olds do going down to Cedar point with my cousin. Since this innocent beginning we established a friendship that would last for years up until May, 2025. She loved her cats and being close to the Earth. Her true love was her faith and I know that she is with her Lord now. God bless you, Sue and your family. I shall miss you a lot.

“ To my very best friend in the world. We stuck together thru high school and managed to survive. As we got into the working world and started our adult life we managed to connect from time to time. Going to the Amish store grocery shopping with you was the highlight of our visits along with talking about vitamins and healthy cooking recipes. Will miss you every day. So glad you are not in pain anymore. We will get together when my times comes and go to estate sales, read nutrition books and share recipes. I won't be allergic to cats anymore so we will have lots of animals to play with too.
