“ This is for Cliff. Last year, second semester, your dad called me and said that the dr had told him that he had less than a year to live. He was worried about you. He told me you were failing Health and that he had to see that you graduated. I told him that day that I would make sure that you passed come h--- or high water. That is why I stayed on top of you with those health assignments. You passed, graduated, and he got to be there for that. Your dad was a great guy.
