“ Tim and I worked at The Home Depot of Sterling Heights. We just started to know one another and shared many jokes that a few people at the Depot would understand. I found out that you left us when I was on leave, I was devastated when I found out. For his family and friends, I am so very sorry that this day has come. I will miss learning more from you my friend. You will be missed.

“ Back when Tim and I were both cashiers at the Harper Woods Home Depot, he used to tease me about my long hair. He'd say that since his hair was getting a bit thin, I should give him some of mine. Not long after he transferred to the Sterling Hts. store, I had my hair cut really short but I had it braided first so I could save it. I put it in an empty candy box, gift wrapped it, and went to see him. I was wearing a hood so you couldn't see my hair. The look in his face when he opened that box was absolutely priceless! YOU CUT YOUR HAIR I CAN'T BELIEVE YOU CUT YOUR HAIR!!! I said, you always said I should give you some of my hair, so here it is. We had a really good laugh over that. We talked for a bit (every third sentence was I can't believe you did that) then he had to get back to work. Working with him was always enjoyable. I miss his sense of humor and his wonderful singing voice. My condolences to the family.
